

DES Employment Group

Not your ordinary staffing agency

DES Employment Group provides the traditional temporary services that your company already knows about, **but did you know that we will payroll your potential employees?**

If your company has a potential employee that you aren't quite sure about, or you are looking for an efficient evaluation period for your prospective employees, simply call DES and we will take care of everything.

How it works:

- You have an applicant you want to test out.
- Send applicant to DES to fill out our paperwork.
- We then let you know that the applicant has completed the paperwork.
- You tell us the time, place and how much you want to pay the applicant.
- We send the applicant to work for you.

How this benefits your company:

- You can 'try out' your potential employee
- You **DO NOT** have to go through all the hassle of paperwork
- You **DO NOT** have to provide **benefits, workman's compensation, or worry about unemployment**
- DES Employment Group provides drug testing and other additional screenings

Your company can hire the employee at any time...no strings attached

DES Employment Group's cost is minimal compared to what your company would spend
on
hiring the wrong person!

You find the people; we take care of the rest!

DES Employment Group, Great Solutions, Great People.
